

Portfolio  
Slide Deck

# Site Map

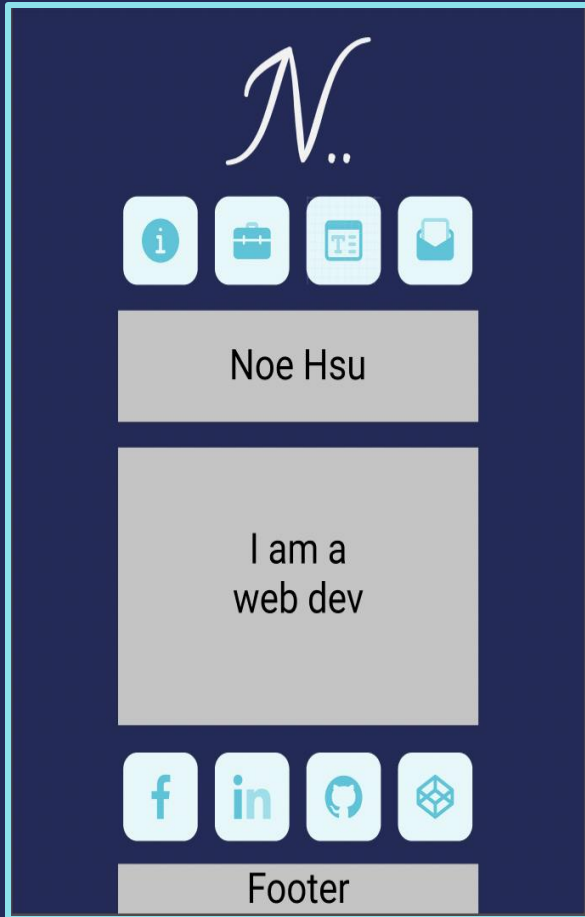

# Design

- Simple and hopefully professional
- Use of animation and icons so it is not too boring

# Layout

- Use of CSS Grid
- 1 column design for the viewports of smart phones and tablets
- Multi column layout for computer screens with nav and side bar moved from top and bottom to left and right
- Two columns inside main for portfolio and blog posts

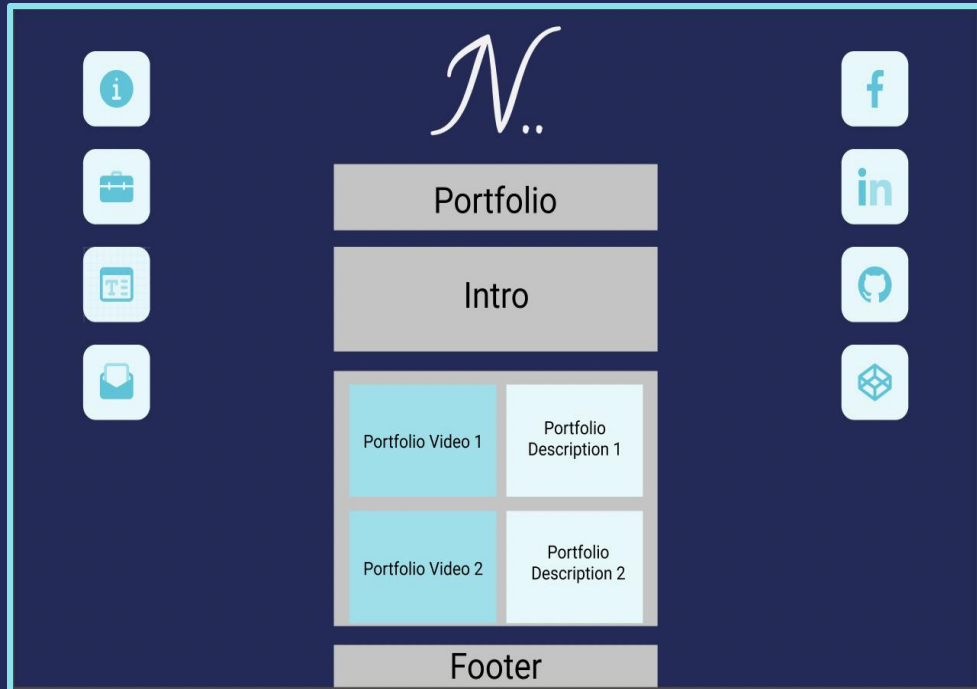

# Components Used

Shared components:

- Header – logo
- Nav bar – links to other pages
- Page title
- Side bar – links to social media
- Footer – copy right

# Components Used

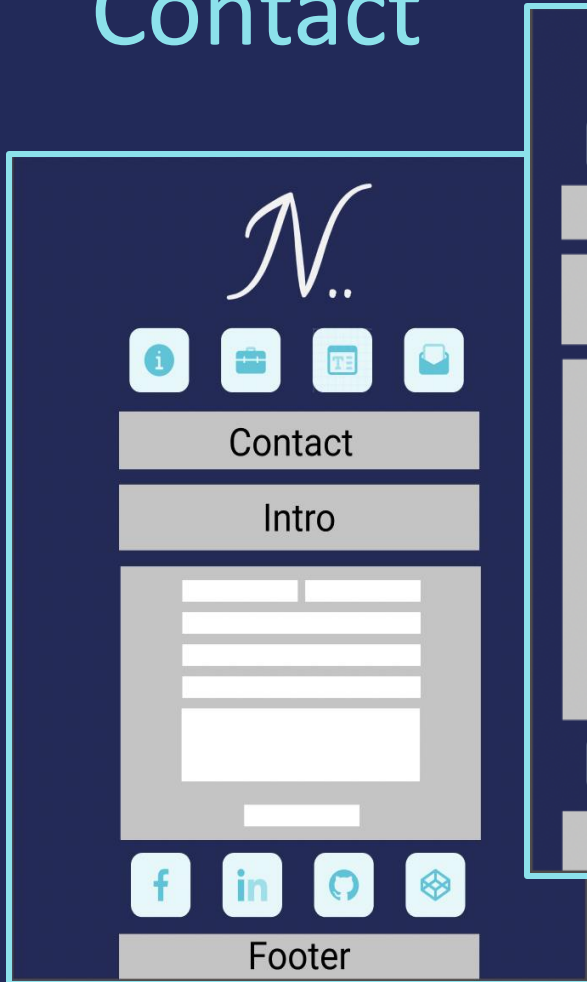

Use of Grid to:

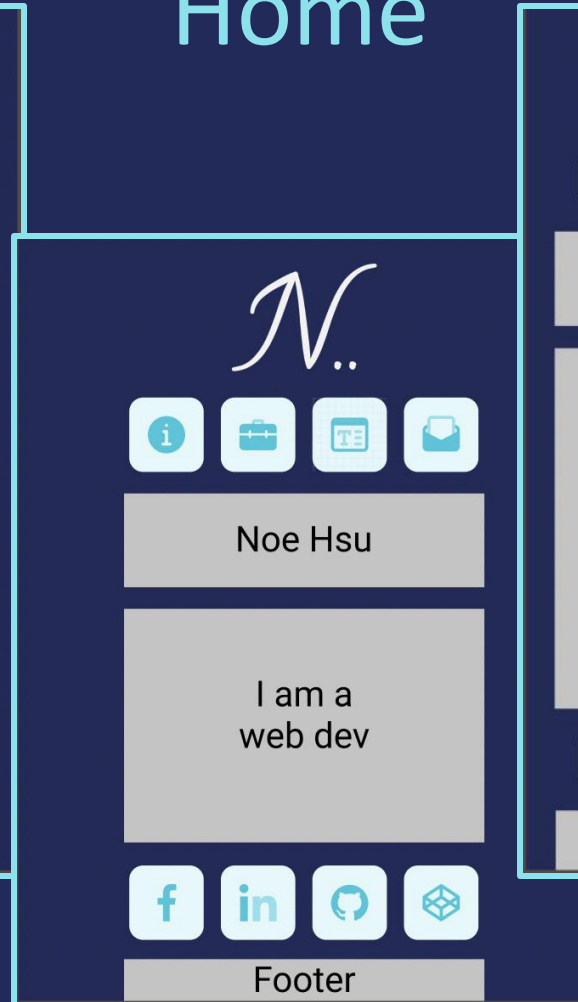

- Break up <main> into sections of .intro and .main-content
- Divs for each portfolio and blog post

# Review

## Challenges:

- Layout
- Clean CSS

## Favorite Parts:

- Layout
- Rainbow text

## Future updates:

- Toggle between dark theme and light theme
- More animation for a game-like experience
